

Simple stabilization of natural soil

The perforated rubber mat ensures the simple stabilization of natural soil and is specially designed for muddy soils. It adapts to the ground and can be simply installed without a substructure. LOMAX is also suitable as a temporary solution, as the mats can be easily removed and re-installed. The flexible single mats are simply fixed together with cable ties.

- Specially designed for muddy soils
- Protects turf and stabilizes the ground
- Mats can be easily removed and re-installed

Technical data

Dimensions	Thickness	Width	Length	Hole size
LOMAX	24 mm / 1"	110 cm / 43 1/4"	175 cm / 68 7/8"	Ø ca. 30 mm / 1 1/4"
Special dimensions on request				

Installation and fixing

Install mats and fix them together with stable cable ties

Tolerances

Strength: +3/-2 mm

Width + length: +/- 1.5% (DIN ISO 3302-1 tolerance class M4)
