

HAASE Calf Scales KW 1 100.100-2 and 100-400

- › for calves
- › **calf barrow with built-in scales** for weighing new-born calves
- › two-wheeled stainless-steel barrow
- › scales for non-calibrated weighing of loads up to 90 kg
- › large, easy-to-read display on the push bar
- › **pan lies flat on the stall floor** to minimise the effort required when loading the calf
- › tread bar allows you to lift the barrow effortlessly into transport and weighing position
- › push bar attached at an ergonomically optimal height
- › lift the barrow to tip the calf out of the pan and onto the straw
- › loading and unloading is physically undemanding and stress-free for both calf and farmer
- › quick and easy cleaning
- › wheels 760 mm apart; PU foam-filled tyres
- › fold-out support bracket
- › wheels available in two different sizes (see table below)
- › **100.116-400**: larger wheels allow easier movement over uneven ground

Optional accessories:

- **Safety Net 105.116** for **KW 1** and **KW 116**, includes 3 carabiner hooks to attach net to barrow
- Price: €
